## **Introduction to the Hong Kong Jockey Club Life-wide Learning Fund**

### **What is life-wide learning?**

Life-wide learning is a strategy that aims to move student learning beyond the classroom into other learning contexts. It requires teachers to make good use of resources and setting available at their schools and in the communities, in order to create suitable learning contexts (combinations of time, place and people) for particular educational purposes. Such experiential learning enables students to achieve certain learning goals that are more difficult to attain through classroom learning alone.

### **What are life-wide learning activities?**

Schools can implement life-wide learning through various community resources such as inspection, visits, excursion, camping, community services, uniform groups, cultural, musical and sports activities, project learning, leadership and intellectual training, etc.
