28th October 2025

Circular No. 25038

Dear Parents/Guardians,

Prevention of Chikungunya Fever and Other Mosquito-borne Diseases

We would like to draw your attention to the first local case of Chikungunya Fever (CF) recorded by the Centre for Health Protection (CHP) of the Department of Health on 26th October 2025.

Please be advised to take personal protective measures such as wearing light-coloured long-sleeved clothes and trousers and applying insect repellent containing DEET to clothing or uncovered areas of the body when doing outdoor activities. If CF symptoms are developed, such as fever, joint pain, and rash, please promptly seek medical advice. Also, be reminded not to self-medicate, particularly with aspirin or non-steroidal anti-inflammatory drugs (such as ibuprofen), as these drugs may cause serious side effects, for example increasing the risk of haemorrhage.

For more information on CF, please visit the CHP website at <https://www.chp.gov.hk/en/health/topics/content/24/6122.html>.

Thank you for your attention.

Yours faithfully,

Lee Po Chu Fiona

Principal

敬啟者：

預防基孔肯雅熱及其他蚊傳疾病

衛生署衛生防護中心於二〇二五年十月二十六日錄得首宗本地感染基孔肯雅熱個案。

特此籲請閣下及 貴子弟提高警覺，預防基孔肯雅熱及其他蚊傳疾病。於戶外活動期間，應做好個人保護措施，穿着淺色長袖上衣和長褲，並於外露的皮膚及衣服上塗上含避蚊胺成分的昆蟲驅避劑。若出現基孔肯雅熱病徵如發燒、關節痛、紅疹等，應盡快求醫。切勿自行用藥，尤其是阿司匹林或非類固醇消炎藥（如布洛芬），因這些藥物可能引起嚴重副作用，例如增加出血風險。

更多有關基孔肯雅熱的資料，請瀏覽衛生防護中心網頁 <https://www.chp.gov.hk/tc/healthtopics/content/24/6122.html>。

此致
各家長

陳瑞祺（喇沙）書院校長
