The Education Bureau has updated the Health Protection Measures for Schools. Parents and students should pay attention to the following:

- If a student is a close contact or household member of a confirmed or preliminary confirmed case of COVID-19, the student must not attend school and should undergo quarantine and/or testing as instructed by the Centre for Health Protection.
- If a student is subject to compulsory testing, he must undergo testing as instructed and obtain a negative test result before attending school.
- Students should check their temperature every day. Those with fever, respiratory symptoms or sudden loss of taste or smell should not attend school. They should seek medical advice as soon as possible.

Parents should promptly inform the school of the above cases. Parents and students can refer to following link for details of the measures.
