

Precautionary Measures for Environmental Hygiene 2020-2021

In view of the latest development of the COVID-19 pandemic, the school has put in place a series of necessary precautionary measures for the sake of safeguarding the health of students. For environmental hygiene, the following measures are implemented to ensure the cleanliness of the school premises and to avoid crowding:

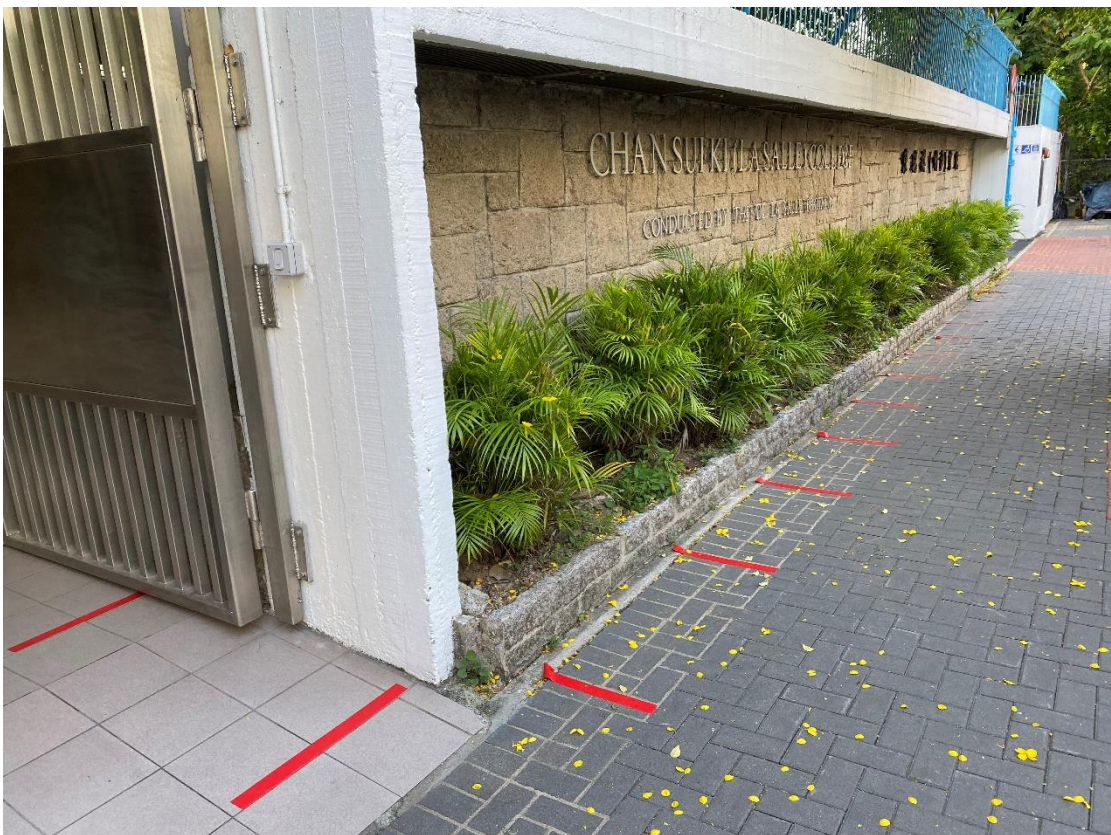

i. the body temperature checking station with thermal imaging camera and infrared thermometers for fever screening

ii. packs of alcohol-based hand sanitizing wipes sponsored by Parent-Teacher Association

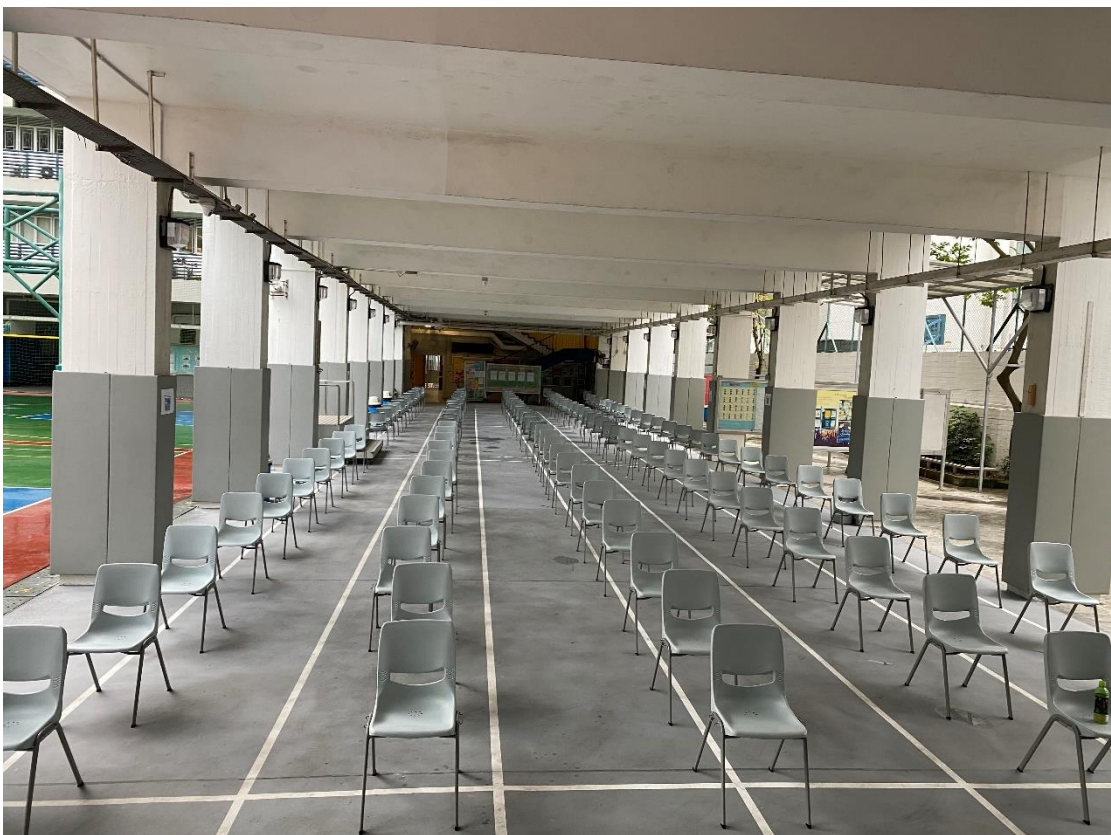

iii. a sterilized carpet at the school entrance

iv. floor markings for queue management at school entrance

v. special seating arrangement in the school hall

vi. special seating arrangement in the covered playground

vii. special seating arrangement and partitioned tables in the canteen

viii. lidded rubbish bin on each floor

ix. floor markings for toilet queue management

x. automatic hand sanitizer dispenser

xi. Signage to remind students to close toilet lids when flushing

xii. Various health education materials displayed on campus
